FREE CLINIC OF CENTRAL VIRGINIA AWARDED \$100,000 FROM GLCF CENTURY FUND

Grant will support expansion of Main Street facility to meet growing healthcare needs

LYNCHBURG, Va., June 29, 2020—After a months-long competitive selection process, the Free Clinic of Central Virginia was chosen as the inaugural grant recipient of the Greater Lynchburg Community Foundation’s Century Fund. This \$100,000 award will partially fund an expansion and renovation of the Free Clinic’s facility at 1016 Main Street in downtown Lynchburg. This renovation will help the Free Clinic to meet the growing need for affordable, comprehensive healthcare for uninsured adults in Lynchburg and the surrounding counties by allowing significant expansion of services, especially in the areas of behavioral health and patient education. The Main Street facility will remain open during the renovation, ensuring uninterrupted access to healthcare.

Christina Delzingaro, CEO of the Free Clinic of Central Virginia, says “We are truly grateful to the Greater Lynchburg Community Foundation and to the individual donors whose support has made the Century Fund possible. At a time when healthcare needs and economic inequities are heightened, we stand in the gap to ensure that high-quality healthcare, dental care, and mental health care are accessible to every member of the Central Virginia community.”
